Ergohome uses Clipso stretch fabric wall and ceiling

Ergohome pioneers the use of this innovative stretch fabric covering solution.

As one of the first UK deployments Ergohome shows the versatility of this stylish, robust and easy-fit finishes.

Clipso is well established in Europe with many award-winning installations of both plain fabric and printed images.

This image of the Norfolk coast at low tide brings an atmospheric and perspective enhanced view across one side of the Ergohome.

It shows just some of the unique features of the Clipso stretch fabric solution:

- Marrying of wall and ceiling one continuous image
- Effective, detailed durability of printed stretch fabric
- Easy cut-out for windows, switches, sockets etc.
- Easy use with wall lighting
- Costs comparable to plastering and painting
- Easy remodelling of the room once initial installation has taken place (simply replace fabric)
- Ability to cover minor surface imperfections (ledges/cracks)
- Sound absorbency and medical type fabrics

Ergohome offers Clipso solutions throughout its rooms with the full range of fabrics, image-printed or plain according to your requirements.
